

Kings Park Neighbors' Association

March 2006

Dear Neighbor,

We would like to take this opportunity to thank you for your support this past year and are excited to say that Kings Park Neighbors' Association is growing at a steady pace.

Kings Park Neighbors has worked diligently this year on the issue of the Kings Park Psychiatric Center. We are extremely happy that this work has paid off; culminating in the State canceling the sale of the hospital property to a developer whose goal was to realize 1800 units of housing on this property.

Although this is welcome news, there is much more work to be done. It is vital that we now work towards getting the necessary funding from the State to clean up the property it polluted. Just as the community was successful in the monumental task of persuading New York State to stop the sale, we will also be successful in securing the necessary funding for the clean up. Your support is essential to make this happen. We urge you to visit our new web site, www.KPNA.org and download a letter to send to our State representatives asking for their help in this matter.

Kings Park Neighbors has enjoyed working for the community this year, not only on the hospital issue, but on various charitable causes, such as providing a scholarship to a dedicated high school graduate, breast cancer research and awareness, ALS research and Relay for Life.

Your support is critical for this community work to continue. We ask that you take a second to fill out and return the attached membership form. Thank you and we look forward to working together in the future to ensure our community remains a wonderful place to live.

Best Regards,

Linda Henninger
KPNA President
